Models and Prices – October 2010

Standard unit

ECOplus® standard unit suitable for installation in the ground. Used to recycle the bath, shower and washing machine water for flushing one toilet. *Price does not include installation.* Must be dug at least 375mm into the ground, or a steel support band is required.

Price: \$3,100

The ECOplus® standard unit is suitable for installation above ground, with the addition of our steel support band.

Additional Cost: \$120

Steel support band

Additional toilets (pump and fittings for). Maximum of three toilets.

Additional Cost: \$375 each

Dimensions:

Size incl. pallet: 1050mm long x 830mm wide x 660mm high (to bottom of inlet pipe). Can be buried approx 670mm deep. Capacity approx 400L. Weight 70 kg, volume approx 0.65m³. The unit is accessed from above via removable waterproof lids. Allow 950mm for vertical clearance *plus 500mm for access* (or provide a fully-opening access hatch above the unit).

ECOplus® Solar Power Kit

This is an aftermarket addition by a third party supplier and will therefore be subject to the supplier's warranty and will not be under warranty with ECOplus Water Recycling Systems.

Although the standard ECOplus® uses very little mains power, with this kit it can be run completely independently from the grid. Continue to flush your toilet when the power goes out!

Additional Cost: \$T.B.C. (approx. \$1,000)

ECOplus® Automatic Garden Watering Systems

The ECOplus® can be ordered with an automatic garden watering system, which will pump off the top 100 litres for irrigation when full and leave the remaining recycled water for toilet flushing.

Additional Cost: \$550

Prices: All prices in New Zealand dollars. All prices are **GST inclusive**.

Payment: Cheque or direct credit / internet banking for full payment with order, or finance can be arranged via Promethius Ethical Finance – call for details.

Options: Systems can be designed or modified to suit your requirements – call us!

Delivery: Approximately 2 weeks from payment received.

Note: Pricing may change. Phone and we will give a fixed quotation. It is your responsibility to obtain any planning or building consents, if required. Pricing does not include installation or consents. We may be able to assist with consent applications and advise on installation.
